Tourism governance

2020 - 2024

• EACAMP

Full Stack Developer

2024 - 2025

Work Experience

Socar

Help Desk

Code Samples

Country Info

<https://country-info00.netlify.app/>

A platform that provides essential information about countries. Users can learn about any country's population, capital, currency, and other details. The site has a simple and fast interface and is hosted on Netlify.

Truth Center

<https://true-false0.netlify.app/>

TruthCenter is a platform that presents false information and their scientific explanations. Here, you can discover over 200 false facts and learn their correct answers. The site aims to prevent misinformation and promote accurate knowledge.

Family Count Calculation Experiment

<https://imagine-family.netlify.app/>

This simple mathematical task involves performing various operations with the number of family members to reach interesting results. It is both fun and a mental exercise to test one's cognitive abilities. In this task, calculations are made by considering the number of family members and women in the family
